Over the Rack - KITE™ - Cables That Fly

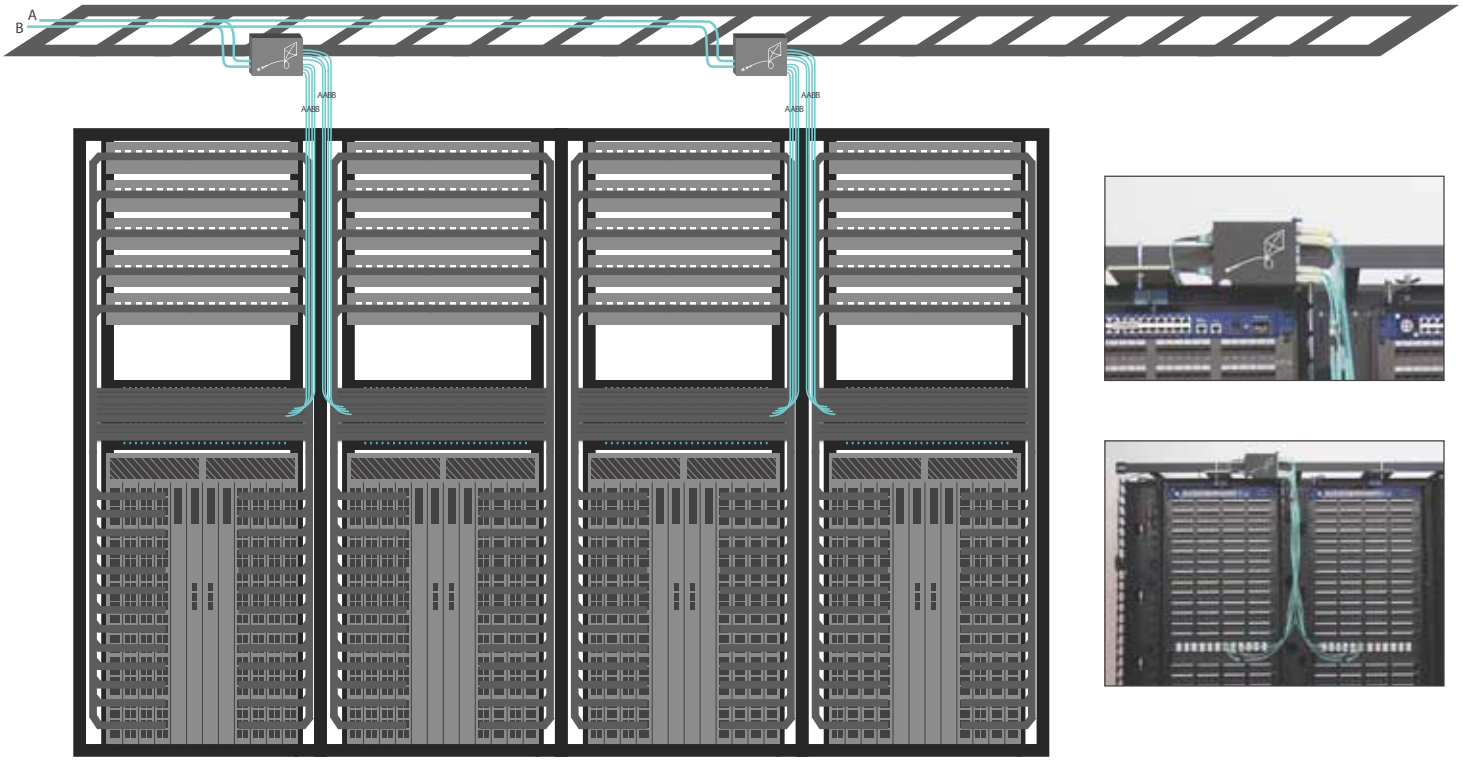
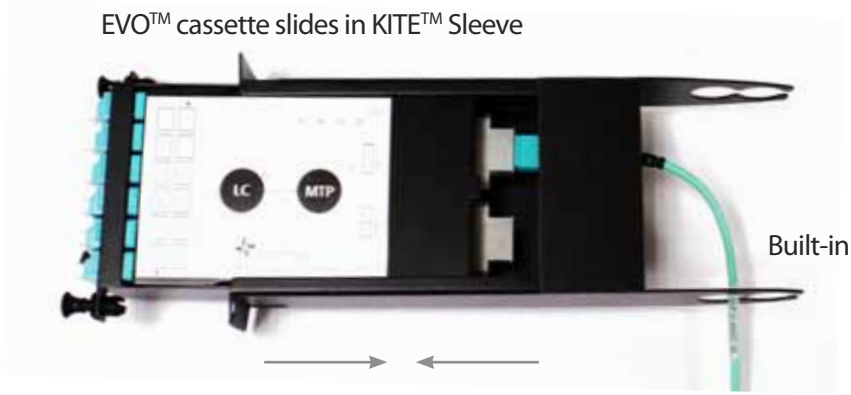
Connect to any metal location on the rack via magnets



EVO™ cassette slides in KITE™ Sleeve



Built-in wire manager

EVO™ Cassettes

Wave2Wave's EVO Cassettes is the smallest high density cassette in the industry. As technology is quickly evolving to the 40G, 100G and 120G in the data center applications, Wave2Wave offers the technology and a plug & play solution to simplify the field deployment.
